

Green Village Initiative

Farm Check Form: Section

Please observe at least 2 frames in every bed

Section 1:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Section 2:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Section 3:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Section 4:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Section 5:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Section 6:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Section 7:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Section 8:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Notes and Observations about the Section:

Green Village Initiative

Farm Check Form: Yellow Section

Please observe at least 2 frames in every bed

Yellow 1:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow 2:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow 3:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow 4:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow 5:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow 6:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow7:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Yellow 8:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Notes and Observations about the Yellow Section:

Green Village Initiative

Farm Check Form: Green Section

Please observe at least 2 frames in every bed

Green 1:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 2:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 3:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Green 4:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 5:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 6:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Green 7:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 8:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 9:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Green 10:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 11:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 12:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Green 13:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 14:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 15:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 16:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 17:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green 18:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Notes and Observations about the Green Section:

Green Village Initiative

Farm Check Form: Purple Section

Please observe at least 2 frames in every bed

Purple 1:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 2:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 3:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Purple 4:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 5:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 6:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Purple 7:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 8:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 9:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Purple 10:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 11:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 12:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 13:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 14:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 15:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Purple 16:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 17:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 18:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Green Village Initiative

Purple 19:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 20:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 21:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Purple 22:

Metric:	Circle the answer that best applies:			Notes:
Weeds Level	Low	Medium	High	
Soil Moisture	Dry	Damp 2 inches down	Damp on Surface	
Overall Health of Plant	Poor / Something is off	Normal	Thriving	
Insect Activity (take a picture of any insects you see)	Eggs or insects under the leaves	Holes in the leaves	Insects crawling on crop	
New Developments on the crop				

Notes and Observations about the Purple Section:
