

Summer Youth Crew Leader

The crew leader(s) are essential to keeping the motivation and pace of work high as your team works on agricultural tasks, community outreach, field trips or taking part in workshops. Two new crew leaders will be chosen every Saturday by a vote from all crew members.

The responsibilities of a group leader:

1. Ability to identify when others need more guidance on a task and ability to step up and lead
2. Making sure people are first and foremost working to grow food for our community during farming hours; sharing stories comes second
3. Correcting people's mistakes and help them learn in a safe, supportive manner
4. Make sure volunteers or visitors are welcomed into your group and that your crew is showing them support and interest
5. Completing the daily task sheet
6. Selecting crew members for harvest day teams (Harvest, Wash & Package)
7. Selecting the morning energizers and after harvest activity
8. Each Crew Leader is responsible for at least one post on the @youth4change_GVI page, and one poll on the story every Saturday
9. Highlighting a BIPOC farmer on Wednesday
